D105 CONNECTION CENTER

Class Descriptions

Homework Support:

A certified teacher is present at every session to assist students with homework or other academic needs they might have. When homework is completed, students can also engage in quiet activities such as writing greeting cards, cursive practice, coloring/drawing, and making origami. This is a quiet and calming space for students.

Open Gym:

Students and families will interact socially through open and guided gym activities. This allows families from across the district to connect and build relationships.

English as a Second Language for Adults:

The Rosetta Stone program is used to teach English as a second language. During this time, you will develop your proficiency and self-assurance in the English language. There is also the option to learn Spanish!

Maker Space:

Students will be in a space to design, play, tinker, collaborate, inquire, problem-solve, and invent. Students get to use their construction, puzzle-solving, and motor skills to build and create structures. Scientific thinking and play come together for some hands-on activities.

Crafts:

Our crafts this month will be winter themed. Arts and crafts help build relationships among participants, creating an atmosphere of collaboration and acceptance.
