^{**} Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided

Equalized assessed valuation includes all computed property values upon which a district's local tax rate is calculated

Total school tax rate is a district's total tax rate as it appears on local property tax bills

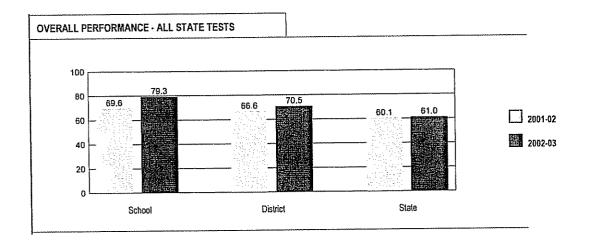

Instructional expenditure per pupil includes the direct costs of teaching pupils or the interaction between teachers and pupils.

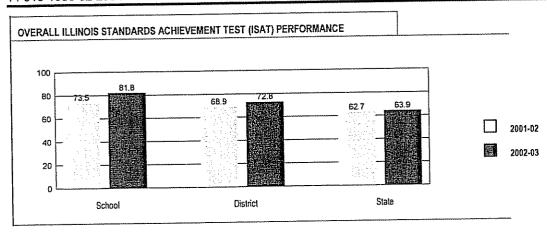

Operating expenditure per pupil includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures

ACADEMIC PERFORMANCE

OVERALL STUDENT PERFORMANCE

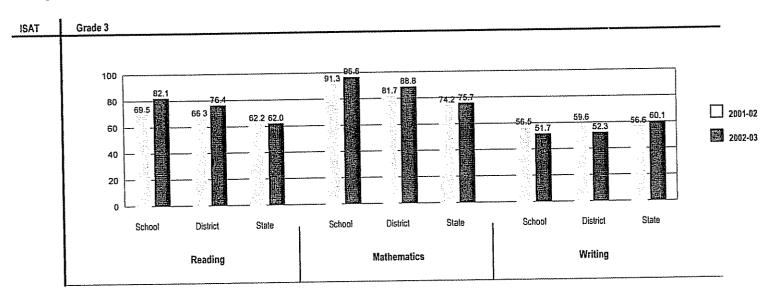

These charts present the overall percentages of state test scores categorized as meeting or exceeding the Illinois Learning Standards for your school, district, and the state. These performance measures include only those test scores for the grades and subjects included in your school.

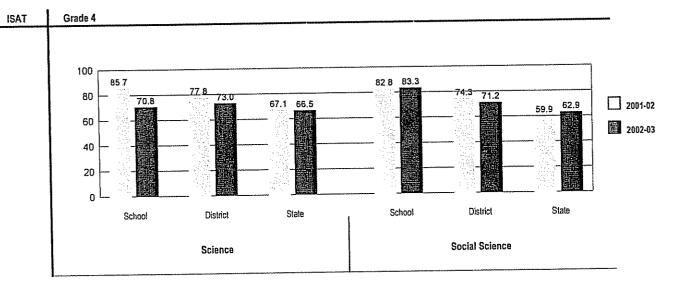

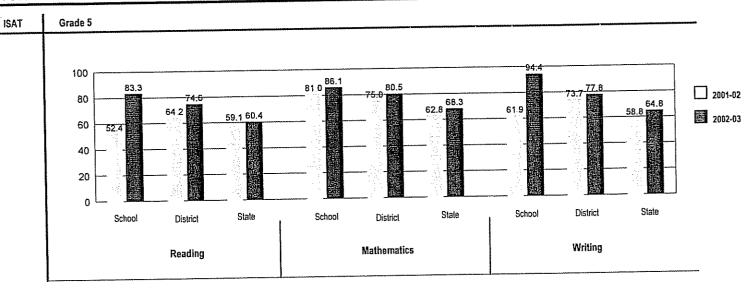

ISAT PERFORMANCE

These charts provide information on attainment of the Illinois Learning Standards. They show the percents of student scores meeting or exceeding Standards for the grades and subjects tested on ISAT.

14-016-1050-02-2004 SEVENTH AVE ELEM SCHOOL

PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3, 4, 5, 7, and 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Measure of Annual Growth in English (IMAGE) is administered to students in state-approved transitional bilingual programs. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP or Section 504 Plan. An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act. A Section 504 Plan is developed to provide reasonable accommodations for a child who meets the definition of a qualified person with a disability under Section 504 of the Rehabilitation Act of 1973.

Schools with grade 2 as the highest grade in the school use a state-adopted test in reading and mathematics to meet this requirement.

In order to protect students' identities, test data for groups of fewer than ten students are not reported.

ILLINOIS STANDARDS ACHIEVEMENT TEST (ISAT)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of Illinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

Level 1 - Academic Warning -

Student work demonstrates limited knowledge and skills in the subject. Because of major gaps in learning, students apply

knowledge and skills ineffectively.

Level 2 - Below Standards -

Student work demonstrates basic knowledge and skills in the subject. However, because of gaps in learning, students

apply knowledge and skills in limited ways

Level 3 - Meets Standards -

Student work demonstrates proficient knowledge and skills in the subject. Students effectively apply knowledge and skills

to solve problems

Level 4 - Exceeds Standards -

Student work demonstrates advanced knowledge and skills in the subject Students creatively apply knowledge and skills

to solve problems and evaluate the results

ADEQUATE YEARLY PROGRESS (AYP) INFORMATION

Is this School making Adequate Yearly Progress (AYP)?	No	
f / -		

Has this school been identified for School Improvement according to the AYP specifications of the federal No Child Left Behind Act?

No

"Incor." denotes information that is correct. Seventh Avenue School met AYP. Seventh Avenue tested 100% of the students for All Group and White Subgroup.

		Percent Te State				Percent	Meeting/Exc	eeding Star	ndards *		Other Indicators

Three Conditions Are Required For Making Adequate Yearly Progress (AYP)

- 1. At least 95.0% Tested for Reading and Mathematics for the All Group and Subgroups
- 2. At least 40.0% Meeting/Exceeding Standards for Reading and Mathematics for the All Group, and at least 37.0% for all Subgroups to compensate for error in measurement for smaller subgroup sizes, or meet Safe Harbor requirements***
- 3. At least 88.0% Attendance Rate for Non-High Schools or at least 65.0% Graduation Rate for High Schools
- * includes only students enrolled as of 9/30/02.
- ** Safe Harbor Targets of 37% or above are not printed.
- Subgroups with fewer than 40 students are not reported. Safe harbor only applies to subgroups. In order for safe harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet state standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. Safe harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

PLANNED IMPROVEMENT FOR THE SCHOOL AND DISTRICT

This is the final section of the school report card in which your school and district provide information below on areas of success and areas for planned improvement based on your school's improvement plan.

(For report cards disseminated electronically, this information may be provided in a separate document due to differences in the software used. If you are unable to locate this document, please contact your local school or district office.)

An Analysis of ISAT Performance for Seventh Avenue Elementary School

Even though all of our students in grades 3, 4, and 5 participated in appropriate state assessments, errors in student demographic information have resulted in Seventh Avenue Elementary School appearing to not meet the Adequate Yearly Progress (AYP) criteria of 93% test participation for one student subgroup. We are currently working with the Illinois State Board of Education (ISBE) to correct this error. When this error has been corrected, our State Report Card will reflect the accurate information that Seventh Avenue School had 100% test participation.

An analysis of our ISAT scores indicates that at the third grade, 82% of the students at Seventh Avenue School meet or exceed state standards in the area of reading. 97% of our students meet or exceed state standards in math. In writing, 52% of our students meet or exceed state standards.

At the fifth grade level, 83% of our students meet or exceed state standards in reading. 86% of our students meet or exceed state standards in math. 94% of our students meet or exceed state standards in writing.

An analysis of the cohort group represented by the third grade class of 2000-01 indicates that individual growth is achieved on a student-by-student basis over time. Performance levels of these students taking the ISAT test in fifth grade remain steady in math, with growth noted in the area of reading, and significant growth demonstrated in writing.

The staff at Seventh Avenue School continue to implement a balanced literacy program and the district math curriculum. While the ISAT Cohort fifth grade students demonstrated significant growth in writing, our School Improvement Plan addresses the area of writing and should result in a gradual increase in the number of third and fifth grade students who meet or exceed state standards.
