September, 2022

Dear Parents:

Illinois law requires school districts to establish an Advisory Committee to assist in the development of guidelines for policies relating to student discipline and the dispensing of medication. Mr. Ed Hood, Gurrie Middle School Principal, chairs this committee.

This Student Handbook provides information to students, parents, and staff concerning Board of Education rules and regulations regarding discipline and health requirements, and general information. District 105's FERPA (Family Educational Rights and Privacy Act) Notification of Rights is also included in the Student Handbook. For COVID-19 related health requirements, please visit our website.

Board policies are updated throughout the year. Current policies can be found in the School Board Policy Manual, posted on the School Board section of the district website, [www.d105.net](http://www.d105.net). Policies pertaining to students have been reproduced in this handbook.

Please review this information carefully and contact your building principal if you have any questions.

Thank you for your continued interest in and support of your child's education in District 105.

Sincerely,

Brian Ganan  
Superintendent of Schools

## MISCELLANEOUS INFORMATION

---

### SCHOOL OFFICE HOURS

8:00 am – 3:30 pm

*Please call your child's school to obtain office hours during holidays and the summer months.*

### VISITORS TO THE BUILDING

We ask all visitors to check in at the school office upon arriving at school. Parents are always welcome to visit the school with the only requirement being that a visitor checks in at the office, signs in, and secures a “visitor” pass.

### ATTENDANCE

When a student is absent a parent must phone the school during the morning of the absence **by** 9:00 a.m. After three days of absence, the principal may request a written excuse from a physician. Parents may request homework when their child's absence covers two or more days. MAKE-UP HOMEWORK: After an absence, students are expected to contact each teacher about missing schoolwork. As a general rule, students are allowed one day for make-up work for each day of sickness. In addition, be sure to visit the teacher's website for information about assignments and upcoming projects. These websites are available through our district site at: [www.d105.net](http://www.d105.net).

Any student arriving late to school must report to the office to be admitted to class. Repeated tardiness will be reported to the Principal. Three or more unexcused tardies will disqualify a student from perfect attendance.

### ARRIVAL TIME

Children should not arrive at school more than fifteen minutes before the beginning of each session. Teachers are not on duty before that time, so children cannot be properly supervised.

Students who take part in special school activities (i.e. band, orchestra) will be granted permission for early admittance.

### EARLY DISMISSAL PROCEDURES

If your child needs to leave school early a written note or email should be sent to the school office. The parent or guardian must come to the school and sign out the student.

### VACATION TRIPS DURING THE SCHOOL YEAR

The school strongly encourages that vacation trips be scheduled only during those times when the school is officially not in session. Make-up work does not adequately substitute for missed class time on regularly scheduled school days. Teachers may not have all assignments available in advance of vacations.

### LUNCH

Students may bring a bag lunch or a lunch will be available for purchase in the cafeteria. Staying at school for lunch is optional for all elementary students except those students who ride the

bus. Milk may be purchased by students bringing their lunches. Hot lunch menus can be found on the district website.

- Students will not be allowed to leave the cafeteria without the permission of the lunchroom supervisor
- The cafeteria will be supervised by staff at all times. Any student who is poorly behaved during the lunch hour will be referred to his or her teacher or the principal by the supervising staff member in the lunchroom
- Students are issued an ID badge at the beginning of the year that they use to purchase a hot lunch. Funds can be added by credit card or check to your child's lunch account . This is a pre-pay program – money needs to be added prior to your child receiving lunch.

### FREE AND REDUCED LUNCH PROGRAMS

All schools in District 105 serve nutritious meals every school day. Children from households that meet federal guidelines are eligible for free or reduced-price meals upon completion of an application form, available in each school office. Additional information regarding the Free and Reduced Lunch Program can be obtained from the District 105 Business Office.

### STUDENT RECORDS

In order that the school may prepare the information and records concerned with the transfers in an orderly manner, the parent of the child to be transferred is asked to observe the following.

- Notify the office at least two days before the date the transfer is to take place.
- Furnish the office with the following information: new home address and the name and address of the school to which the student is transferring.

The student will have a clearance sheet signed by each teacher. At the time a student transfers, he will be given a copy of his last report card, a copy of his latest health record and an Illinois State Transfer Form. If a student does not meet his/her obligations (i.e., cafeteria fees, and/or book and library fines), student records will be held until the student is cleared. Standardized test results and original health records will be forwarded upon request by an official of the new school.

### HEALTH EXAMINATIONS AND IMMUNIZATIONS

Complete health examinations and up to date immunization records are required for entry into preschool, kindergarten, and sixth grade. These should be submitted on or before the first day of school. Current students not in compliance by September 15 will be excluded at that time. Further details regarding the requirements can be obtained from each school.

New students who are first time registrants will be given a 30-day grace period from the date of registration to comply with health examination and immunization requirements. If these requirements are not met within 30 days, the student will be immediately excluded from school.

### SCHOOL NURSE

Registered nurses are available in District Schools to provide direct care for injuries and illnesses; to assist students with chronic conditions; to protect and promote healthy and optimal development; and to support academic success.

Student's health records, which include the required physical exams, immunizations, and special needs, are kept in the health office.

### MEDICATIONS AT SCHOOL

**All medications must be brought to the nurse's office by a parent in the original pharmacy container.** Over-the-counter medications must be in original, unopened packages. Medications needed during the school day are limited to those that are necessary for the student to access the educational program, and if not taken, could jeopardize the student's health and/or education. A medication authorization form completed by the doctor and parent/guardian is required before any medication (prescribed or over the counter) may be given. These forms are available in the offices. In general, students are not allowed to carry medication on their person. The only exceptions are medications used to treat asthma and epinephrine auto-injectors (e.g. Epi-Pens). These medications may be carried and self-administered by students after required doctor and parent authorization forms are on file in the office. The same policy applies to food supplements.

### WHEN TO KEEP STUDENTS HOME FROM SCHOOL

Students should be kept home from school for the following in order for the student to have time to rest and recover and to limit the spread of illness:

- a. Any COVID-19-like symptoms. CALL YOUR CHILD'S SCHOOL NURSE. See the Health Handbook for COVID-19 requirements.
- b. Rashes that have not been checked by a doctor. If the student will be coming to school with a rash that the doctor has checked, a doctor's note is required noting that the student is cleared to come to school.
- c. Fevers (temperature of 100.4 or above). Do not give students medications to reduce the fever and then send them to school. Students must be fever free for 24 hours (without needing medication to remain fever free) for return to school.
- d. Red, pink, crusty, irritated eyes. If your student will be coming to school with red, pink, crusty, or irritated eyes that the doctor has checked, a doctor's note is required noting that the student is cleared for school attendance.
- e. Vomiting and/or diarrhea. Students should be kept at home with these symptoms and for at least 24 hours after they have happened last.
- f. Any problems like earaches or stomachaches that will make it hard for the student to participate comfortably in the school day.

### STUDENTS BECOMING ILL AND INJURED AT SCHOOL

Students sometimes become ill or injured during the school day. An assessment of their health status is done by the school nurse, health aide, teacher, principal, and/or principal's designee to determine the course of action. It is the responsibility of the parent to make arrangements to take the student home and seek medical care as needed. Sick children cannot be adequately cared for in the school setting. This practice serves the welfare of the sick child and allows for the control of the spread of infection and disease.

First aid is given for injuries occurring in school or on the school grounds. Plans are in place for emergency situations. In the case of a serious accident or illness, the parent/guardian (or alternate contacts provided by the parent/guardian if the parent/guardian cannot be reached)

will be notified to coordinate arrangements to take the student home or to a medical provider. 9-1-1 will also be called in cases of emergency medical situations.

Please have plans in place in case your student needs to be sent home from school. Make sure family contact numbers are up-to-date in school offices.

### CPR AND AED VIDEO

State law requires the Illinois High School Association to post a hands-only cardiopulmonary resuscitation and automated external defibrillators training video on its website. The law also requires the District to notify staff members and parents/guardians about the video. The video is posted to the D105 website, under the Health Services tab, You are encouraged to view the video, which will take less than 15 minutes of your time, at:

<https://www.ihsa.org/Resources/SportsMedicine/CPRTTraining.aspx>

### LOCKERS

Care of the lockers is the student's responsibility. No writing of any kind should be done on the inside or outside of lockers. Stickers should not be applied to lockers. The outside of lockers are not to be decorated for birthdays or other occasions.

### PERSONAL PROPERTY:

- When anything is lost, the student should report this to his or her advisor/teacher/office
- The student should come to the office to inquire about lost articles
- Each student has a locker where their valuables can be kept safely ○ Students should not carry large sums of money and should not leave purses and other valuables in unattended areas, such as locker rooms - *The school is not responsible for personal items*
- Items prohibited in lockers and at school: permanent markers, weapons, drugs, medications, laser pointers, food supplements, and other items as necessary

### LIBRARY/COMPUTER LAB

The library contains books, reference materials, and periodicals to supplement and enrich the curriculum and to provide recreational reading. Students are responsible for loss or damage to books.

### HOMEWORK

Homework is an important part of skill reinforcement and a student's responsibility toward school. Your child's teacher will talk about homework expectations on Curriculum Night. *Please make sure you and your child understand the school's policy if a student comes to class and does not have the assignment due that day, or it is not done to the teacher's satisfaction.*

Parents may request homework through the school office or their advisor when their child's absence covers two or more days. For shorter absences, students can check with a classmate and with each teacher upon returning to school.

Please email your child's advisors for long term absences and always consult the teacher's website for daily assignments and homework ([www.d105.net](http://www.d105.net)). *MAKE-UP HOMEWORK*: After an absence, students are expected to contact each teacher about missing school work. Planning to stay after school to gather assignments and receive help is a good idea. Teachers in each grade level determine time allowed for make-up work. Usually one day for each day absent.

### CELL PHONES

Every room as well as the office has phones for student use. Students are asked to please check with teachers prior to using room phones to call. During the day, students will not need to have their cell phones with them.

Students may possess cellular radio telecommunications devices at school only if the student's parent or guardian has provided written consent to the school principal. The written consent shall include the reason the parent believes the student should possess the device at school and the telephone number of the device. The school district and its employees are not responsible for lost or damaged cellular radio telecommunications devices. Students possessing cellular radio telecommunication devices at school shall keep the device off and in their lockers during the regular school day unless:

- The supervising teacher expressly grants permission;
- Use of the device is provided in a student's IEP
- The device is needed in an emergency that threatens the safety of students, staff or other individuals.

Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Prohibited conduct specifically includes, without limitation, creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device, or cellular phone.

Unless otherwise banned under this policy or by the Building Principal, all electronic devices must be kept powered-off and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student's individualized education plan (IEP); (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Any student who has their cell phone out, or is found to be using the phone during school hours, will give the cell phone to the supervising teacher and it will be sent to the office. Parents will then be required to come to school to pick up the phone at their convenience.

### E-READERS

A student will be allowed to bring to school, and use at school, an electronic reader device for the purpose of reading eBooks, as long as a parent or guardian and student agree to the conditions and sign a consent form.

- The content of all eBooks should be developmentally appropriate for the student and suitable for a school setting.

- If the device is lost, stolen, or damaged, District 105 will not be held financially responsible for the replacement or repair of the device.
- Devices that have Wi-Fi capability will not have access to the District 105 wireless network because doing so would be a significant security risk to our network.
- Devices with additional functionality can only be used at school in the capacity as an eReader. Use of other applications and utilities will not be allowed at school. Some examples include email, texting, camera, phone, Internet, or other app usage.
- If any of the above conditions are not met, the device will be taken away from the student requiring a parent/guardian to pick up the device from school and may result in this privilege being revoked.

### PARENT/TEACHER CONFERENCES

Student progress is reported to parents in several ways and at various times throughout the year. Report cards are sent home to parents at the end of each trimester. Also, at the midpoint of each trimester, a progress report is sent home to every parent. Parent teacher conferences are scheduled two times throughout the year however; parents may request a conference at any time during the school year by calling or emailing the teacher. Teachers e-mail addresses are posted on the District 105 Website: [www.d105.net](http://www.d105.net).

### STUDENT DISCIPLINE PLAN

One of the goals of education is effective citizenship. An effective citizen in a democracy is a responsible, self-disciplined, and considerate person. Accordingly, an objective in all D105 schools is the development of responsibility, self-discipline, and courtesy within each student. It is necessary therefore; that certain responsibilities and behavioral principles be established to assure that a good learning environment is maintained. Each student may then develop a feeling of security, confidence, and fairness in the discipline system and an understanding that the right to learn has been safeguarded.

### DISOBEDIENCE OR MISCONDUCT LIST

While this list is not intended to be all-inclusive, it is consistent with District #105 Discipline Policy No. 7:190 and prohibits conduct, behavior, or activity which causes or may reasonably lead to substantial disruption of material and interfere with student activities or rights of others.

**Misbehavior, which may have a range of consequences (including suspension):**

- Insubordination to any school personnel, which includes failure to follow directions or follow school wide expectations.
- Possession of, use or distribution of any dangerous substance or weapon including firearms, knives or anything that could be used as a weapon.
- Intimidating or attempting to intimidate students or school personnel, which would include bullying.
- Fighting with or assaulting students or school personnel.
- Intentional damage to or destruction of school property, or property of students or school personnel.

- Verbal abuse or use of profanity or obscenity to students or school personnel.
- Endangering the physical or psychological well-being of the school population by acts such as
  - Improper release of a school fire alarm or tampering with the fire extinguishers.
  - Starting a fire in or to school property or attempting to do so.
  - Setting off explosive devices in or to school property or attempting to do so.
- Repeated incidents of misbehavior including repeated refusal to comply with school expectations.
- Acts which directly or indirectly jeopardize the health, safety and welfare of students or school personnel.

**Misbehavior, which may merit a suspension:**

- Stealing of school or personal property
- Defacing of school or personal property
- Use of or possession of dangerous drugs or chemicals, cigarettes and alcoholic beverages
- Chronic tardiness to classes
- Chronic failure to bring books and work materials to the classroom
- Failure to observe bus regulations
- Forging, falsifying, altering or illegally possessing school forms, cheating, plagiarizing or otherwise claiming credit for work or ideas not their own
- Other behavior or conduct which is of such gross nature as to constitute a violation of the spirit or intent of these rules though not explicitly stated above or which in itself is so gross as to constitute on its face gross disobedience or misconduct

Suspendable disobedience of misconduct shall include, but is not limited to, the above behaviors and any other such conduct as designated by the Board of Education. Some infractions, according to School Board Policy, may require referral to the appropriate law enforcement authorities.

**Three or more suspensions issued during a school year may result in a recommendation for expulsion to the Board of Education.** When a suspension is warranted, the principal will follow suspension procedures as outlined in School Board Policy 7:200 (see page 56).

**PROHIBITED ITEMS**

In addition to items restricted on this page, and in support of several of the policies above which protect the educational environment, the following items are prohibited at school:

- The operation of any device disruptive to the learning environment
- Permanent markers, aerosol cans, laser pointers
- Skateboards and in line skates
- Backpacks should be stored in lockers during the school day

**SEXUAL HARASSMENT**

Violations of Board of Education Policy on Sexual Harassment are subject to the same range of disciplinary actions described in the Discipline Plan.

## GANG-RELATED ACTIVITY

Student involvement in gangs or gang-related activities on school grounds or at school-related events, including the display of gang symbols or gang paraphernalia, is strictly prohibited. Any student who is a gang member or solicits another student to become a member of a gang or who engages in gang-related activities or initiation on school grounds or at school-related events will be subject to suspension and/or expulsion.

## SCHOOL DRESS CODE

It is expected that students shall be dressed in an appropriate manner while at school or attending a school or PTO sponsored activity. Appropriate school dress includes clothing and accessories that do not disrupt the educational process or compromise reasonable standards of health or safety. Personal attire must also be clean and safe so as not to be a hazard to the health and welfare of the student and other students in the school. D105 faculty will monitor these guidelines, but the primary responsibility for appropriate student dress remains with the student and the student's parents/guardians. D105 hopes that parents will take an active part in assisting their children in making intelligent decisions about their appearance in school.

If District personnel determines, at their sole discretion, that a student is wearing inappropriate clothing, the student will be asked to change. If needed, parents will be contacted to bring a change of clothes or students will be sent home. The following guidelines will be used in evaluating appropriate student dress. These include but are not limited to:

- Shoes must be worn in the building
- Footwear or other clothing items which may damage furniture or equipment may not be worn
- Hats, head coverings of any kind, (except that of established religious groups or for health and safety of students and staff) and gloves may not be worn in the building
- Wearing of jewelry or clothing which displays obscene, profane, or offensive designs or logos, or vulgar language or pictures is prohibited
- Wearing of jewelry or clothing which displays tobacco, alcohol, firearms, or illegal drugs is prohibited
- Wearing of jewelry or clothing that displays gang signs, colors, or symbols is prohibited
- Clothing that is tight, revealing, or suggestive, including but not limited to, skirts or shorts that are shorter than mid-thigh, clothing with revealing rips or holes, tops with limited coverage (such as spaghetti straps, tube tops, crop tops, tops showing midriff, muscle tank tops, or one-shoulder tops), nightwear or items normally worn as undergarments but displayed as outerwear (such as bra tops or boxers), and tops or bottoms that reveal underwear are prohibited
- Students will be required to cover tattoos that are deemed to disrupt the educational process, compromise reasonable standards of health or safety, or fail to adhere to the District's guidelines for appropriateness with clothing or other coverage

The school principal is the final authority for judging the appropriateness of a student's appearance.

## **BUS RIDERS**

The following SCHOOL BUS RULES will be enforced:

- Stay off the roads at all times while waiting for the bus
- Wait until the bus comes to a complete stop before attempting to board it or get off
- Do not move toward the bus at the school loading zone until the bus has been brought to a complete stop
- Keep hands and head inside the bus at all times after entering, and until leaving the bus
- Remember that loud talking and laughing or unnecessary confusion diverts the driver's attention and may result in a serious accident
- Never tamper with the bus or any of its equipment
- Keep the bus and aisles clean and free of clutter
- Do not throw anything out of the bus window
- Do not leave your seat while the bus is in motion

## **EMERGENCY SCHOOL CLOSING**

During emergency weather situations, we work closely with the Lyons Township Superintendents well before the start of the school day to monitor weather conditions and review other information provided by the police and bus companies. We generally make a decision together about whether or not to close the township schools unless there is a problem that affects only one particular district.

If District 105 schools are closed, we will contact our parents/guardians about school closings and other weather related circumstances with our automated message service. The service will make phone calls to the cell and home phones of our parents/guardians. In addition, emails with the voice message embedded will be sent.

The districts website, [www.d105.net](http://www.d105.net), is the best source for timely information about whether our schools are closed or in session.

## **10:00 AM LATE ARRIVAL**

We are introducing a 10:00 AM late arrival option for all five schools due to certain weather conditions. We will notify parents of LATE ARRIVAL in the same manner we use for the cancellation of school. LATE ARRIVAL bus stop times are listed along with the regular bus stop schedules. They can be found under the PARENT/GUARDIAN tab of the District 105 website.

The safety of our students is foremost when a decision is made about late arrival or cancellation of school. Because individual circumstances vary, it is important to recognize that parents have the primary responsibility and the right to determine whether or not to send their children to school during emergency weather situations.

## **SPECIAL EDUCATION SERVICES**

School Districts are responsible for providing special education services to any student between the age of 3 and 21 who is found eligible through a case study evaluation. In addition, the district will assist parents of children from birth to three years to connect with early

intervention services, if needed. Parents of preschool children should contact the District Student Services Director, Coleen Winterfield, (708)482-2700 ext. 1006, if they have concerns about their child's development. The District also provides free preschool screenings several times a year.

Students may be found eligible for services based on an eligibility category of: autism; deafblindness; deafness; emotional disturbance; hearing impairment; intellectual disability; multiple disabilities; orthopedic impairment; other health impairment; specific learning disability; speech or language impairment; traumatic brain injury; or visual impairment (including blindness). Eligibility is also determined by a student's disability adversely impacting on educational performance. Special Education services may include instructional support, speech-language therapy, social work, vision and hearing services, assistive technology services, occupational therapy and physical therapy.

## **504 Plans Student Rights and School Responsibilities**

Section 504 of the Rehabilitation Act of 1973 and Americans with Disability Act Section 504 of the Rehabilitation Act prohibits discrimination against persons with a disability in any program receiving Federal financial assistance. Students with disabilities shall be provided accommodations in order to ensure equal participation in the school setting. The Act defines a person with a disability as anyone who has a mental or physical impairment which substantially limits one or more major life activity: self-care, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working. Academic accommodations may include individualized instruction, extra time, reduced workload or organizational assistance. Physical accommodations may include assistive technology devices or special equipment, administering medication or preferential seating, but would not include changes in instructional programs.

When a student with disabilities requires an accommodation, the parents and school representatives will meet to determine the disability and develop a written plan outlining accommodations that will be provided in the school setting.

### Section 1: Referral of Students with Disabilities

1. A student may be referred by a school employee, a parent or through self-referral for determination of whether accommodations need to be provided.
2. A student may be referred for Section 504 accommodations after a case study evaluation has determined that the student is ineligible for special education services under the Individual with Disabilities Education Act (IDEA), but still has a disability that would require accommodations.

### Section 2: Review of Need for Accommodation Plan/Development of Plan

1. A meeting will be convened with parents, student and appropriate school personnel to determine the nature of the disability, reasonable and appropriate accommodations to ensure the student can participate equally in school, and to prepare a written 504 Plan if justified. Evaluation procedures may be utilized, or

- medical records requested, to determine if a student is eligible for accommodations under Section 504.
2. If it is determined that no accommodations are necessary to ensure equal participation by the student, the parents shall be given reasons for such determination and be advised of their right to obtain review of the decision.

## District 105 notification of rights under FERPA for elementary and secondary schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the school receives a request for access.
  - Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
  - Parents or eligible students who wish to ask the [School] to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.
  - One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or

school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

- Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the [School] to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW

See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school

has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))

- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§ 99.31(a)(8))
- To comply with a judicial order or lawfully issued subpoena if applicable requirements are met. (§ 99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to § 99.36. (§ 99.31(a)(10))
- Information the school has designated as "directory information" if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))

- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student’s case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))
- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))

A student and/or parent/guardian filing a complaint under this policy may forego any informal suggestions and/or attempts to resolve it and may proceed directly to this grievance procedure. The Complaint Manager will not require a student or parent/guardian complaining of any form of harassment to attempt to resolve allegations directly with the accused (or the accused's parents/guardians); this includes mediation.

#### Right to Pursue Other Remedies Not Impaired

The right of a person to prompt and equitable resolution of a complaint filed under this policy shall not be impaired by the person's pursuit of other remedies, e.g., criminal complaints, civil actions, etc. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies and use of this grievance procedure does not extend any filing deadline related to the pursuit of other remedies. If a person is pursuing another remedy subject to a complaint under this policy, the District will continue with a simultaneous investigation under this policy.

#### Deadlines

All deadlines under this policy may be extended by the Complaint Manager as he or she deems appropriate. As used in this policy, *school business days* means days on which the District's main office is open.

#### Filing a Complaint

A person (hereinafter Complainant) who wishes to avail him or herself of this grievance procedure may do so by filing a complaint with any District Complaint Manager. The Complainant shall not be required to file a complaint with a particular Complaint Manager and may request a Complaint Manager of the same gender. The Complaint Manager may request the Complainant to provide a written statement regarding the nature of the complaint or require a meeting with a student's parent(s)/guardian(s). The Complaint Manager shall assist the Complainant as needed.

For any complaint alleging bullying and/or cyberbullying of students, the Complaint Manager shall process and review the complaint according to Board policy 7:180, *Prevention of and Response to Bullying, Intimidation, and Harassment*, in addition to any response required by

this policy. For any complaint alleging sexual harassment or other violation of Board policy 5:20, *Workplace Harassment Prohibited*, the Complaint Manager shall process and review the complaint according to that policy, in addition to any response required by this policy.

### Investigation Process

The Complaint Manager will investigate the complaint or appoint a qualified person to undertake the investigation on his or her behalf. The Complaint Manager shall ensure both parties have an equal opportunity to present evidence during an investigation. If the Complainant is a student, under 18 years of age, the Complaint Manager will notify his or her parents/guardians that they may attend any investigatory meetings in which their child is involved. The complaint and identity of the Complainant will not be disclosed except: (1) as required by law, this policy, or any collective bargaining agreement, (2) as necessary to fully investigate the complaint, or (3) as authorized by the Complainant.

The identity of any student witnesses will not be disclosed except: (1) as required by law, this policy, or any collective bargaining agreement, (2) as necessary to fully investigate the complaint, or (3) as authorized by the parent/guardian of the student witness, or by the student if the student is 18 years of age or older.

The Superintendent will keep the Board informed of all complaints.

If a complaint contains allegations involving the Superintendent or Board member(s), the written report shall be filed directly with the Board, which will make a decision in accordance with paragraph four of the following section of this policy.

### Decision and Appeal

Within five school business days after receiving the Complaint Manager's report, the Superintendent shall mail his or her written decision to the Complainant and the accused by registered mail, return receipt requested, and/or personal delivery as well as to the Complaint Manager. All decisions shall be based upon the *preponderance of evidence* standard.

Within 10 school business days after receiving the Superintendent's decision, the Complainant or the accused may appeal the decision to the Board by making a written request to the Complaint Manager. The Complaint Manager shall promptly forward all materials relative to the complaint and appeal to the Board.

Within 30 school business days after an appeal of the Superintendent's decision, the Board shall affirm, reverse, or amend the Superintendent's decision or direct the Superintendent to gather additional information. Within five school business days after the Board's decision, the Superintendent shall inform the Complainant and the accused of the Board's action.

For complaints containing allegations involving the Superintendent or Board member(s), within 30 school business days after receiving the Complaint Manager's or outside investigator's report, the Board shall mail its written decision to the Complainant and the accused by

registered mail, return receipt requested, and/or personal delivery as well as to the Complaint Manager. This policy shall not be construed to create an independent right to a hearing before the Superintendent or Board. The failure to strictly follow the timelines in this grievance procedure shall not prejudice any party.

Appointing a Nondiscrimination Coordinator and Complaint Managers

The Superintendent shall appoint a Nondiscrimination Coordinator to manage the District's efforts to provide equal opportunity employment and educational opportunities and prohibit the harassment of employees, students, and others. The Nondiscrimination Coordinator also serves as the District's Title IX Coordinator.

The Superintendent shall appoint at least one Complaint Manager to administer this policy. If possible, the Superintendent will appoint two Complaint Managers, one of each gender. The District's Nondiscrimination Coordinator may be appointed as one of the Complaint Managers.

The Superintendent shall insert into this policy and keep current the names, office addresses, email addresses, and telephone numbers of the Nondiscrimination Coordinator and the Complaint Managers. ## **4:184 Student Use of Face Coverings During Pandemic**

### **General Statement**

The District's highest priority is the health and safety of employees and students. To meet this priority, all students must wear face coverings over their nose and mouth at all times while in district school buildings and on school buses, even when maintaining social distance (where individuals remain 6 feet apart from each other), in accordance with guidance established by the Illinois Department of Public Health and the Illinois State Board of Education.

Face coverings are not required on school property outside of the buildings. There may be times when masks are required outdoors: if community transmission levels are substantial or high, during crowded outdoor activities, or during activities that involve sustained close contact with other people who are not fully vaccinated. Additionally, face coverings may be removed for limited periods of time as necessary for a student to eat/drink, or to play a musical instrument.

In general, all students in a school building must wear a face covering unless they:

- have a medical contraindication,
- have trouble breathing, or
- are unconscious, incapacitated, or unable to remove the face covering without assistance.

Clear face shields are not an appropriate substitution for face coverings as they do not offer the same level of protection against the coronavirus. Students who have a medical contraindication to using a face covering may request an accommodation, such as wearing a face shield, as explained in the Exemption and Accommodation Request section, below.

## **Exemption or Accommodation Request**

The decision to grant an exemption or accommodation will be made on a case-by-case basis. Students whose request for an exemption or accommodation has been denied must wear a face covering in accordance with this policy.

### **A. General Education Students**

The parent / guardian of a general education student who cannot wear a face covering due to one of the reasons listed above must make a written request for an exemption or accommodation to the face covering requirement to their School Principal. The parent / guardian shall submit a completed Medical Certification for Student Face Covering Exemption / Accommodation Form which can be found on the District website.

### **B. Special Education and Section 504 Students**

The parent / guardian of a student with an IEP or a Section 504 plan who cannot wear a face covering due to one of the reasons listed above, a respiratory condition, sensory processing sensitivity, the oral expulsion of bodily fluids, or other basis must make a written request for an exemption or accommodation to the face covering requirement to Colleen Winterfield, Director of Student Services. The parent / guardian shall submit a completed Medical Certification for Student Face Covering Exemption / Accommodation form which can be found on the District website.

## **Enforcement**

Students who refuse to wear a face covering are subject to discipline, that may include detention, in-school suspension, out-of-school suspension, and removal to a remote-learning platform during the pendency of the directive to wear face coverings while at school.

### Nutrition Guidelines for Foods Available During the School Day

Students will be offered and schools will promote nutritious food and beverage choices consistent with the current *Dietary Guidelines for Americans* published jointly by the U.S. Departments of Health and Human Services and Agriculture (USDA). In addition, in order to

promote student health and reduce childhood obesity, the Superintendent or designee shall restrict the sale of *competitive foods*, as defined by the USDA, in the food service areas during meal periods and comply with all ISBE rules.

### Exempted Fundraising Day (EFD) Requests

All food and beverages sold to students on the school campuses of participating schools during the school day must comply with the “general nutrition standards for competitive foods” specified in federal law, unless the Superintendent or designee in a participating school has granted an exempted fundraising day (EFD). To request an EFD and learn more about the District’s related procedure(s), contact the Superintendent or designee. The District’s procedures are subject to change. The number of EFDs is set by ISBE rule.

Reports and complaints of harassment will be confidential to the greatest extent practicable, subject to the District's duty to investigate and maintain an educational environment that is productive, respectful, and free of unlawful discrimination, including harassment.

For any report or complaint alleging sexual harassment that, if true, would implicate Title IX of the Education Amendments of 1972 (20 U.S.C. §1681 et seq.), the Nondiscrimination Coordinator or designee shall consider whether action under policy 2:265, *Title IX Sexual Harassment Grievance Procedure*, should be initiated.

For any other alleged student harassment that does not require action under policy 2:265, *Title IX Sexual Harassment Grievance Procedure*, the Nondiscrimination Coordinator or a Complaint Manager or designee shall consider whether an investigation under policies 2:260, *Uniform Grievance Procedure*, and/or 7:190, *Student Behavior*, should be initiated, regardless of whether a written report or complaint is filed.

## **7:100 Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students**

### Required Health Examinations and Immunizations

A student's parents/guardians shall present proof that the student received a health examination, with proof of the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth grade; and
3. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, Head Start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

Proof of immunization against meningococcal disease is required for students in grade 6.

As required by State law:

1. Health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice registered nurse, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
  2. A diabetes screening is a required part of each health examination; diabetes testing is not required.
  3. An age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.
    - a. If proof of the developmental screening or the social and emotional screening portions of the health examination are not presented, qualified school support personnel may, with a parent/guardian's consent, offer the screenings to the child.
    - b. Once a student presents proof that he or she received a developmental screening or a social and emotional screening, the school may, with a parent/guardian's consent, make available appropriate school personnel to work with the parent/guardian, child, and provider who signed the screening form to obtain any appropriate evaluations and services.
1. Before admission and in conjunction with required physical examinations, parents/guardians of children between the ages of one and seven years must provide a statement from a physician that their child was risk-assessed or screened for lead poisoning.
  2. The IDPH will provide all students entering sixth grade and their parents/guardians information about the link between human papillomavirus (HPV) and HPV-related cancers and the availability of the HPV vaccine.

3. The District will provide informational materials regarding influenza, influenza vaccinations, meningococcal disease, and meningococcal vaccinations developed, provided, or approved by the IDPH when it provides information on immunizations, infectious diseases, medications, or other school health issues to students' parents/guardians.

Unless an exemption or extension applies, the failure to comply with the above requirements by September 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after September 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by September 15, the student must present, by September 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice registered nurse, physician assistant, or local health department responsible for administering the immunizations.

A student transferring from out-of-state who does not have the required proof of immunizations by September 15 may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

### Eye Examination

Parents/guardians are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by October 15, the school may hold the student's report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the IDPH. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

## Dental Examination

All children in kindergarten and the second and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the IDPH.

If a child in the second or sixth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year.

## Exemptions

In accordance with rules adopted by the IDPH, a student will be exempted from this policy's requirements for:

1. Religious grounds, if the student's parents/guardians present the IDPH's Certificate of Religious Exemption form to the Superintendent or designee. When a Certificate of Religious Exemption form is presented, the Superintendent or designee shall immediately inform the parents/guardians of exclusion procedures pursuant to Board policy 7:280, *Communicable and Chronic Infectious Disease*, and State rules if there is an outbreak of one or more diseases from which the student is not protected.
2. Health examination or immunization requirements on medical grounds, if the examining physician, advanced practice registered nurse, or physician assistant provides written verification.
3. Eye examination requirement, if the student's parents/guardians show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist.
4. Dental examination requirement, if the student's parents/guardians show an undue burden or a lack of access to a dentist.

## Homeless Child

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. Board of Education policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

## **7:130 Student Rights and Responsibilities**

All students are entitled to enjoy the rights protected by the U.S. and Illinois Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures.

Students may, during the school day, during noninstructional time, voluntarily engage in individually or collectively initiated, non-disruptive prayer or religious-based meetings that, consistent with the Free Exercise and Establishment Clauses of the U.S. and Illinois Constitutions, are not sponsored, promoted, or endorsed in any manner by the school or any school employee. *Noninstructional time* means time set aside by a school before actual classroom instruction begins or after actual classroom instruction ends.

## **7:140 Search and Seizure**

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

### School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

### Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

### Student Profile on Social Networking Website

Although it is a rarely invoked and extraordinary investigatory right, school authorities may request or require a student to provide a password or other related account information in order to gain access to the student's account or profile on a social networking website when there is a reasonable ground for suspecting that the student's account on a social networking website contains evidence that the student has violated or is violating either the law or the District's student conduct rules.

### Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

#### Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:

1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.
2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

## 7:180 Prevention of and Response to Bullying, Intimidation, and Harassment

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic **is prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and it does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

### Definitions from 105 ILCS 5/27-23.7

### Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the following requirements:

1. The District uses the definition of *bullying* as provided in this policy.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.

3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The District named officials and all staff members are available for help with a bully or to make a report about bullying. Anonymous reports are also accepted; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
  - a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration

additional relevant information received during the course of the investigation about the reported incident of bullying.

- b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
- c. Notifying the Building Principal or school administrator or designee of the report of the incident of bullying as soon as possible after the report is received.
- d. Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The Superintendent or designee shall investigate whether a reported act of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
7. A reprisal or retaliation against any person who reports an act of bullying **is prohibited**. Any person's act of reprisal or retaliation will be subject to disciplinary action, up to and including discharge with regard to employees, or suspension and/or expulsion with regard to students.
8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, a person who is found to have falsely accused another of bullying, as a means of retaliation, as a means of bullying, or provided false information will be treated as either: (a) *bullying*, (b) student discipline up to and including suspension and/or expulsion, and/or (c) both (a) and (b) for purposes of determining any consequences or other appropriate remedial actions.
9. The District's bullying prevention and response plan is based on the engagement of a range of school stakeholders, including students and parents/guardians.
10. The Superintendent or designee shall post this policy on the District's website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired), and must also be provided periodically throughout the school year to students and faculty.
11. Pursuant to State law and policy 2:240, *Board Policy Development*, the Board monitors this policy every two years by conducting a review and re-evaluation of this policy to make any necessary and appropriate revisions. The Superintendent or designee shall assist the Board with its re-evaluation and assessment of this policy's outcomes and effectiveness. Updates to this policy will reflect any necessary and appropriate revisions. This process shall include, without limitation:

- a. The frequency of victimization;
- b. Student, staff, and family observations of safety at a school;
- c. Identification of areas of a school where bullying occurs;
- d. The types of bullying utilized; and
- e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. Acceptable documentation to satisfy the re-evaluated policy submission include one of the following:

- 1) An updated version of the policy with the amendment/modification date included in the reference portion of the policy;
- 2) If no revisions are deemed necessary, a copy of board minutes indicating that the policy was re-evaluated and no changes were deemed to be necessary, or a signed statement from the board; or
- 3) A signed statement from the Board President indicating that the Board re-evaluated the policy and no changes to it were necessary.

The Superintendent or designee must post the information developed as a result of the policy re-evaluation on the District's website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students. Reviews and re-evaluations in years they are due must be submitted to ISBE by September 30.

  - f. 7:20, *Harassment of Students Prohibited*. This policy prohibits *any* person from harassing, intimidating, or bullying a student based on an identified actual or perceived characteristic (the list of characteristics in 7:20 is the same as the list in this policy).

- g. 7:185, *Teen Dating Violence Prohibited*. This policy prohibits teen dating violence on school property, at school sponsored activities, and in vehicles used for school-provided transportation.
  - h. 7:190, *Student Behavior*. This policy prohibits, and provides consequences for, hazing, bullying, or other aggressive behaviors, or urging other students to engage in such conduct.
  - i. 7:310, *Restrictions on Publications*. This policy prohibits students from and provides consequences for: (1) accessing and/or distributing at school any written, printed, or electronic material, including material from the Internet, that will cause substantial disruption of the proper and orderly operation and discipline of the school or school activities, and (2) creating and/or distributing written, printed, or electronic material, including photographic material and blogs, that causes substantial disruption to school operations or interferes with the rights of other students or staff members.
13. The Superintendent or designee shall fully inform staff members of the District's goal to prevent students from engaging in bullying and the measures being used to accomplish it. This includes each of the following:
- a. Communicating the District's expectation and State law requirement that teachers and other certificated or licensed employees maintain discipline.
  - b. Establishing the expectation that staff members: (1) intervene immediately to stop a bullying incident that they witness or immediately contact building security and/or law enforcement if the incident involves a weapon or other illegal activity, (2) report bullying, whether they witness it or not, to an administrator, and (3) inform the administration of locations on school grounds where additional supervision or monitoring may be needed to prevent bullying.

## 7:190 Student Behavior

The goals and objectives of this policy are to provide effective discipline practices that: (1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the causes of a student's misbehavior and provide opportunities for all individuals involved in an incident to participate in its resolution; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

### When and Where Conduct Rules Apply

A student is subject to disciplinary action for engaging in *prohibited student conduct*, as described in the section with that name below, whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including, but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

### Prohibited Student Conduct

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to:

1. Using, possessing, distributing, purchasing, or selling tobacco or nicotine materials, including without limitation, electronic cigarettes.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing, selling, or offering for sale:
  - a. Any illegal drug or controlled substance, or cannabis (including marijuana, hashish, and medical cannabis unless the student is authorized to be administered a medical cannabis infused product under *Ashley's Law*).
  - b. Any anabolic steroid unless it is being administered in accordance with a physician's or licensed practitioner's prescription.
  - c. Any performance-enhancing substance on the Illinois High School Association's most current banned substance list unless administered in accordance with a physician's or licensed practitioner's prescription.

- d. Any prescription drug when not prescribed for the student by a physician or licensed practitioner, or when used in a manner inconsistent with the prescription or prescribing physician's or licensed practitioner's instructions. The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited unless the student is authorized to be administered a medical cannabis infused product under *Ashley's Law*.
- e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
- f. Any substance inhaled, injected, smoked, consumed, or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in tablet or powdered form.
- g. *Look-alike* or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance, or other substance that is prohibited by this policy.
- h. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

- 4. Using, possessing, controlling, or transferring a *weapon* as that term is defined in the **Weapons** section of this policy, or violating the **Weapons** section of this policy.
- 5. Using or possessing a cellular telephone, electronic signaling device, two-way radio, video recording device, and/or other telecommunication device, unless authorized and approved by the Building Principal.
- 6. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.
- 7. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a District staff member's request to stop, present school identification, or submit to a search.
- 8. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards, and wrongfully obtaining test copies or scores.
- 9. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any

use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.

10. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning), and sexual assault. This does not include the non-disruptive: (a) expression of gender or sexual orientation or preference, or (b) display of affection during non-instructional time.
11. Teen dating violence, as described in Board policy 7:185, *Teen Dating Violence Prohibited*.
12. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's personal property.
13. Entering school property or a school facility without proper authorization.
14. In the absence of a reasonable belief that an emergency exists, calling emergency responders (such as calling 911); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.
15. Being absent without a recognized excuse; State law and School Board policy regarding truancy control will be used with chronic and habitual truants.
16. Being involved with any public school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.
17. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.
18. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, vandalism, and hazing.
19. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
20. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.
21. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of this policy, the term *possession* includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student

locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

### Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, *Bus Conduct*.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, *Suspension Procedures*. A student who has been suspended shall also be restricted from being on school grounds and at school activities.

12. Expulsion from school and all school activities for a definite time period not to exceed two calendar years in accordance with Board policy 7:210, *Expulsion Procedures*. A student who has been expelled shall also be restricted from being on school grounds and at school activities.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), *look-alikes*, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion. Students enrolled in the District's State-funded preschool program(s) may be temporarily removed or transitioned to a new program in accordance with federal and State law. State law prohibits the expulsion of students from the program(s).

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

#### Isolated Time Out, Time Out, and Physical Restraint

Neither isolated time out, time out, nor physical restraint shall be used to discipline or punish a student. These methods are only authorized for use as permitted in 105 ILCS 5/10-20.33, State Board of Education rules (23 Ill.Admin.Code §§ 1.280, 1.285), and the District's procedure(s).

#### Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).

2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including *look alikes* of any firearm as defined above.

The expulsion requirement under either paragraph 1 or 2 above may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy's prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

### Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student's ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

### Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, Ill. Dept. of State Police (ISP), and any involved student's parent/guardian. *School grounds* includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

### Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other

persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

### Student Handbook

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment.

## **7:200 Suspension Procedures**

### In-School Suspension

The Superintendent or designee is authorized to maintain an in-school suspension program. The program shall include, at a minimum, each of the following:

1. Before assigning a student to in-school suspension, the charges will be explained and the student will be given an opportunity to respond to the charges.
2. Students are supervised by licensed school personnel.
3. Students are given the opportunity to complete classroom work during the in-school suspension for equivalent academic credit.

### Out-of-School Suspension

The Superintendent or designee shall implement suspension procedures that provide, at a minimum, for each of the following:

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
2. A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student's parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
  - a. Provide notice to the parent(s)/guardian(s) of their child's right to a review of the suspension;
  - b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
  - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;

- d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
- e. Depending upon the length of the out-of-school suspension, include the following applicable information:
  - i. For a suspension of 3 school days or less, an explanation that the student's continuing presence in school would either pose:
    - a) A threat to school safety, or
    - b) A disruption to other students' learning opportunities.
  - ii. For a suspension of 4 or more school days, an explanation:
    - a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
    - b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
    - c) That the student's continuing presence in school would either:
      - i) Pose a threat to the safety of other students, staff, or members of the school community, or
      - ii) Substantially disrupt, impede, or interfere with the operation of the school.
  - iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.
- 5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.
- 6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from a local mental health agency to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the

Board's written suspension decision shall specifically detail items (a) and (e) in number 4, above.

## **7:270 Administering Medicines to Students**

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed *School Medication Authorization Form (SMA Form)* is submitted by the student's parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

### Self-Administration of Medication

A student may possess and self-administer an epinephrine injector, e.g., EpiPen®, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed an *SMA Form*. The Superintendent or designee will ensure an Emergency Action Plan is developed for each self-administering student.

A student may self-administer medication required under a *qualifying plan*, provided the student's parent/guardian has completed and signed an *SMA Form*. A qualifying plan means: (1) an asthma action plan, (2) an Individual Health Care Action Plan, (3) an Ill. Food Allergy Emergency Action Plan and Treatment Authorization Form, (4) a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973, or (5) a plan pursuant to the federal Individuals with Disabilities Education Act.

The District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

#### School District Supply of Undesignated Asthma Medication

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated asthma medication in the name of the District and provide or administer them as necessary during regular school hours according to State law. *Undesignated asthma medication* means an asthma medication prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated asthma medication to a person when they, in good faith, believe a person is having *respiratory distress*. Respiratory distress may be characterized as *mild-to-moderate* or *severe*. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

#### School District Supply of Undesignated Epinephrine Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated epinephrine injectors in the name of the District and provide or administer them as necessary during regular school hours according to State law. *Undesignated epinephrine injector* means an epinephrine injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

#### Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Program Act allows a *medical cannabis infused product* to be administered to a student by one or more of the following individuals:

1. A parent/guardian of a student who is a minor who registers with the Ill. Dept. of Public Health (IDPH) as a *designated caregiver* to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a *medical cannabis infused product* to a child who is a student on the premises of his or her school or on his or her school bus if:
  - a. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
  - b. Copies of the registry identification cards are provided to the District;
  - c. That student's parent/guardian completed, signed, and submitted a *School Medication Authorization Form - Medical Cannabis*; and
  - d. After administering the product to the student, the designated caregiver immediately removes it from school premises or the school bus.
2. A properly trained school nurse or administrator, who shall be allowed to administer the *medical cannabis infused product* to the student on the premises of the child's school, at a school-sponsored activity, or before/after normal school activities, including while the student is in before-school or after-school care on school-operated property or while being transported on a school bus.
3. The student him or herself when the self-administration takes place under the direct supervision of a school nurse or administrator.

*Medical cannabis infused product* (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver, or by a school nurse or administrator, or who self-administers a product under the direct supervision of a school nurse or administrator pursuant to this policy is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

### Void Policy

The **School District Supply of Undesignated Asthma Medication** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated asthma medication from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school asthma medication.

The **School District Supply of Undesignated Epinephrine Injectors** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school epinephrine injectors.

The **Administration of Medical Cannabis** section of the policy is void and the District reserves the right not to implement it if the District or school is in danger of losing federal funding.

#### Administration of Undesignated Medication

Upon any administration of an undesignated medication permitted by State law, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

#### Undesignated Medication Disclaimers

Upon implementation of this policy, the protections from liability and hold harmless provisions applicable under State law apply.

No one, including without limitation, parents/guardians of students, should rely on the District for the availability of undesignated medication. This policy does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

CROSS REF.: 7:285 (Anaphylaxis Prevention, Response, and Management Program)

Adopted: September 26, 2022

## 7:285 Anaphylaxis Prevention, Response, and Management Program

School attendance may increase a student's risk of exposure to allergens that could trigger anaphylaxis. Students at risk for anaphylaxis benefit from a Board of Education policy that coordinates a planned response in the event of an anaphylactic emergency. Anaphylaxis is a severe systemic allergic reaction from exposure to allergens that is rapid in onset and can cause death. Common allergens include animal dander, fish, latex, milk, shellfish, tree nuts, eggs, insect venom, medications, peanuts, soy, and wheat. A severe allergic reaction usually occurs quickly; death has been reported to occur within minutes. An anaphylactic reaction can also occur up to one to two hours after exposure to the allergen.

While it is not possible for the District to completely eliminate the risks of an anaphylactic emergency when a student is at school, an Anaphylaxis Prevention, Response, and Management Program using a cooperative effort among students' families, staff members, students, health care providers, emergency medical services, and the community helps the District reduce these risks and provide accommodations and proper treatment for anaphylactic reactions.

The Superintendent or designee shall develop and implement an Anaphylaxis Prevention, Response, and Management Program for the prevention and treatment of anaphylaxis that:

1. Fully implements the Ill. State Board of Education (ISBE)'s model policy required by the School Code that: (a) relates to the care and response to a person having an anaphylaxis reaction, (b) addresses the use of epinephrine in a school setting, (c) provides a full food allergy and prevention of allergen exposure plan, and (d) aligns with 105 ILCS 5/22-30 and 23 Ill.Admin.Code §1.540.
2. Ensures staff members receive appropriate training, including: (a) an in-service training program for staff who work with students that is conducted by a person with expertise in anaphylactic reactions and management, and (b) training required by law for those staff members acting as *trained personnel*, as provided in 105 ILCS 5/22-30 and 23 Ill.Admin.Code §1.540.
3. Implements and maintains a supply of undesignated epinephrine in the name of the District, in accordance with policy 7:270, *Administering Medicines to Students*.
4. Follows and references the applicable best practices specific to the District's needs in the Centers for Disease Control and Prevention's *Voluntary Guidelines for Managing Food Allergies in Schools and Early Care and Education Programs* and the *National Association of School Nurses Allergies and Anaphylaxis Resources/Checklists*.
5. Provides annual notice to the parents/guardians of all students to make them aware of this policy.
6. Complies with State and federal law and is in alignment with Board policies.

### Monitoring

Pursuant to State law and policy 2:240, *Board Policy Development*, the Board monitors this policy at least once every three years by conducting a review and reevaluation of this policy to make any necessary and appropriate revisions. The Superintendent or designee shall assist the Board with its reevaluation and assessment of this policy's outcomes and effectiveness. Any updates will reflect any necessary and appropriate revisions.

2. Records maintained by law enforcement officers working in the school.
3. Video and other electronic recordings (including without limitation, electronic recordings made on school buses) that are created in part for law enforcement, security, or safety reasons or purposes. The content of these recordings may become part of a school student record to the extent school officials create, use, and maintain this content, or it becomes available to them by law enforcement officials, for disciplinary or special education purposes regarding a particular student.
4. Any information, either written or oral, received from law enforcement officials concerning a student less than the age of 18 years who has been arrested or taken into custody.

State and federal law grants students and parents/guardians certain rights, including the right to inspect, copy, and challenge school student records. The information contained in school

student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but a parent/guardian shall have the right to opt-out of the release of directory information regarding his or her child. The District will comply with State or federal law with regard to release of a student's school records, including, where applicable, without notice to, or the consent of, the student's parent/guardian or eligible student. Upon request, the District discloses school student records without parent consent to the official records custodian of another school in which a student has enrolled or intends to enroll, as well as to any other person as specifically required or permitted by State or federal law.

The Superintendent shall fully implement this policy and designate an *official records custodian* for each school who shall maintain and protect the confidentiality of school student records, inform staff members of this policy, and inform students and their parents/guardians of their rights regarding school student records.

### Student Biometric Information Collection

The Superintendent or designee may recommend a student biometric information collection system solely for the purposes of identification and fraud prevention. Such recommendation shall be consistent with budget requirements and in compliance with State law. Biometric information means any information that is collected through an identification process for individuals based on their unique behavioral or physiological characteristics, including fingerprint, hand geometry, voice, or facial recognition or iris or retinal scans.

Before collecting student biometric information, the District shall obtain written permission from the person having legal custody/parental responsibility or the student (if over the age of 18). Upon a student's 18<sup>th</sup> birthday, the District shall obtain written permission from the student to collect student biometric information. Failure to provide written consent to collect biometric information shall not be the basis for refusal of any services otherwise available to a student.

All collected biometric information shall be stored and transmitted in a manner that protects it from disclosure. Sale, lease, or other disclosure of biometric information to another person or entity is strictly prohibited.

The District will discontinue use of a student's biometric information and destroy all collected biometric information within 30 days after: (1) the student graduates or withdraws from the School District, or (2) the District receives a written request to discontinue use of biometric information from the person having legal custody/parental responsibility of the student or the student (if over the age of 18). Requests to discontinue using a student's biometric information shall be forwarded to the Superintendent or designee.

The Superintendent or designee shall develop procedures to implement this policy consistent with State and federal law.
